

HYDROCOAT POLYMER WAX

HR/BiH/SRB

Iznimno učinkovit mirisni polimerni vosak i sredstvo za sušenje posebno razvijeno za samoposlužne autopraonice. Na površini vozila ostavlja zaštitni sloj s učinkom ogledala. Osigurava brzo "pucanje" vodenog filma te brzo i efikasno sušenje vozila. Dodatak mirisa i umjerena pjena korisnicima pružaju dodatan ugođaj u primjeni. U svojoj formulaciji sadrži polimere i kationske tenzide najnovije generacije. Proizvod se može koristiti i u ručnim autopraonicama. Odličan odnos cijene i kvalitete.

PRIMJENA:

Koristi se nerazrijeđen, ovisno o sistemu doziranja i tipu samoposlužne autopraonice od 10-30 impulsa, 1:100-1:200 ili 10-30 ml po vozilu. Ispiranje osmozom.

INGREDIENTS/KOMPOSITION (IUPAC): Fatty acids, C10-20 and C16-18-unsatd., reaction products with triethanolamine, di-Me sulfate-quaternized 5-15%, Oleyl amine, dye, perfume

ENG:

Extremely effective fragrant polymer wax and desiccant specially developed for self-service car washes. On the surface the vehicle leaves a protective layer with a mirror effect. It provides a quick "burst" of water film as well fast and efficient vehicle drying. Addition of fragrance and moderate foam provide users with extra atmosphere in the application. In its formulation it contains polymers and cationic surfactants of the latest generation. The product can also be used in manual car washes. Great value for money.

Applications:

It is used undiluted, depending on the system dosage and type of self-service car wash of 10-30 pulses, 1: 100-1: 200 or 10-30 ml per vehicle. Osmosis rinsing.
